

Premium ePubublishing System

- Best reading experiences on desktop computers and mobile tablets.
- A complete eco-system for web publishing and user community.

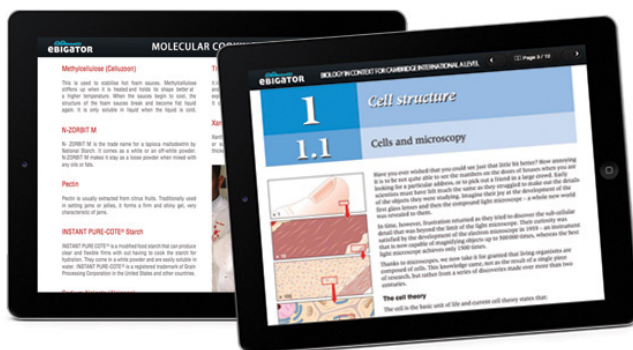

Supported browsers:

Features

Accurate PDF/ePUB3 Conversion

Using modern technologies, the system provides amazingly accurate rendering of sources files converted from pdf on devices

Catalog/Custom Management

- The system is highly configurable and flexible to handle large volume of users and content updates
- Catalogs and publishers are meta-tagged for ease of searching and housekeeping

Digital Rights Management

The system prevents unauthorized redistribution of digital publications and restrict the ways users can copy content they have purchased using personal encryption keys

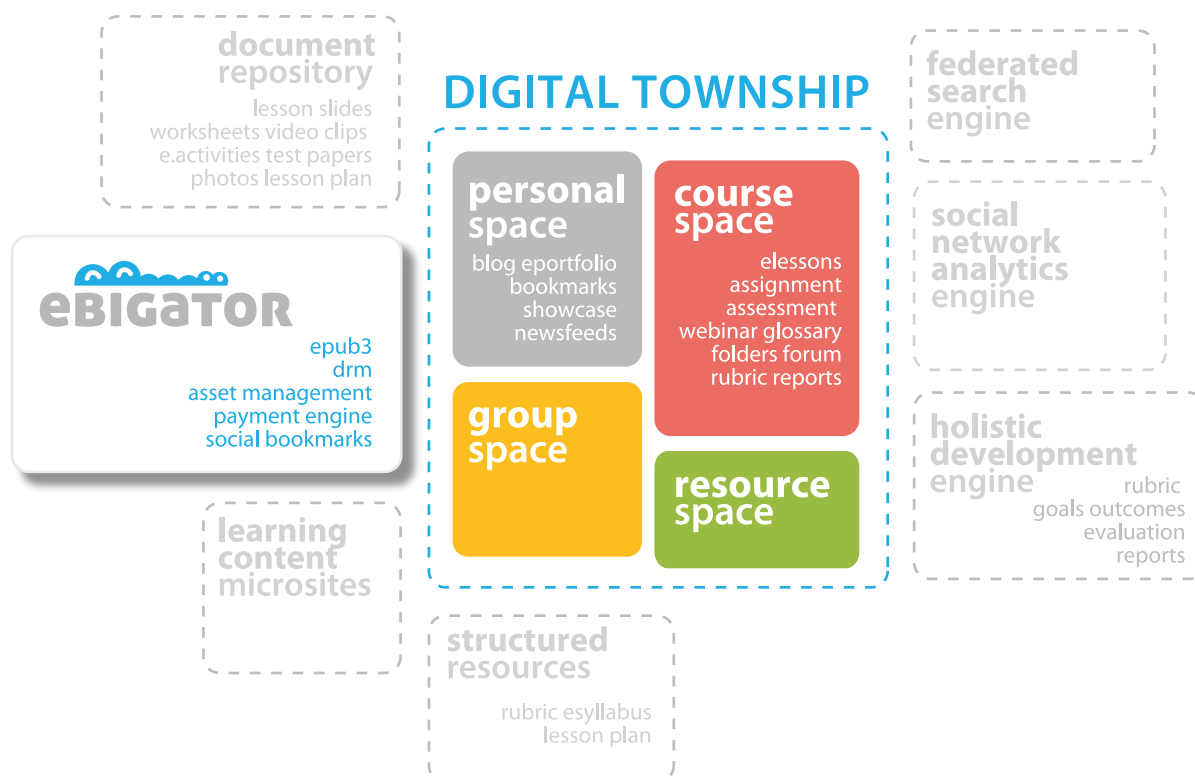

User Experience

- Allows users to read a book using standard features like search, bookmarks
- Simplified purchase process to make payment for digital publications quick and easy

Let's go further ...

The future of publishing is entering a new golden era that will make publishing electronic documents available to more people. eBigator is part of a Digital Township eco-system. We have been and intend to move further ahead ...
