School Management System

A highly productive teacher means better teaching quality. By reducing the teachers' workload, more time can be spent on improving the quality of education.

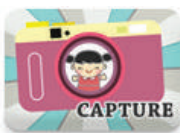

Attendance/ temperature-taking

Put pen and paper aside. Teachers can record attendance and temperature at the same time effortlessly.

Children's profiles

Keep abreast of every child's development. Generate child's portfolio and evaluation for parents at a click of the mouse.

ePortfolio

Build children's portfolios in 3 steps. First, upload the learning evidence. Second, add captions. Third, tag the children.

Fee management

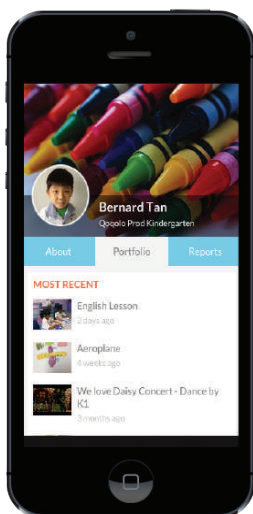

Monitor school fees and other miscellaneous fess with ease!

Supported browsers :

Parents' Mobile Application

As parents are children's lifelong teachers, it is important for them to get involved in their development. Life will never be the same again when they can use a portable electronic device to review their child's performance.

Admire the child's work at their fingertips

Access end-of-semester report conveniently

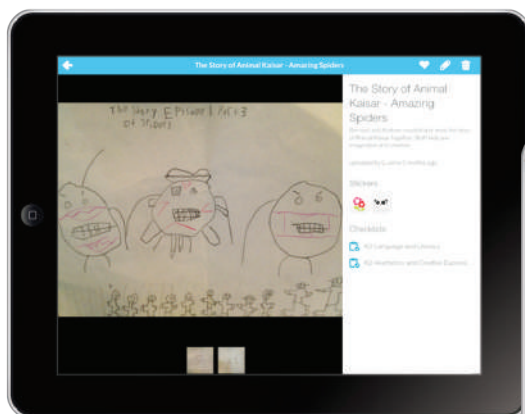

Get updated with news and events

Teachers' Mobile Application

Building a child's portfolio is a laborious task. This mobile application revolutionised the creation of a child's portfolio. With such an application that boasts convenience, this means more time allocated for other activities.

☛ Capturing learning evidences is as easy as 123!

☛ Record attendances and temperatures on the go

Review and grade the child's performance on key learning areas over the course of his learning journey on the go.
